In the Faculties of Medicine and History-Philology there are groups in which all courses are given only in Russian.

During the German occupation he was even employed in the north-eastern part of Lithuania.)

The course of Jurisprudence takes five years.

Unfortunately the Faculty staff of the contemporary University of Vilnius is not complete. Mentioned here are more or less the Chairmen of the Cathedra only, on the whole 71 professors. Among those are 32 former Lithuanian professors of the

same university, 26 new persons, Lithuanians, and 13 new persons - Russians. We see that in leading teaching positions there are 26 new Lithuanian professors without any previous academic experience. It would also be very hard to evaluate the 13 new Russian professors. Presumably at least some of them have had some academic experience before in the USSR.

Concerning the courses and curricula of the university, particularly the Law School, we must distinguish between Bolshevik theoretical planning and practice. It might be that many of the courses indicated are not taught at all, at least not by the present professorial staff. Probably they serve the purpose of propaganda or they are planned for the distant future.
